

附件：

申请健康码方式

一、中国公民（含持中国护照、旅行证、港澳居民来往内地通行证、台湾居民来往大陆通行证人员）：通过微信搜索“防疫健康码国际版”或扫描以下二维码，进入微信防疫健康码国际版小程序，填报提交并申请健康码。

中国公民防疫健康码国际版小程序

二、非中国公民：通过外国人健康状况声明书二维码网页申请，请点击 <https://hrhk.cs.mfa.gov.cn/H5/> 进入。

三、准确填写申报信息

申报信息将用于健康码审核并体现在健康码上，请务必如实、准确填报。

（一）在采样、检测和在线申报时，确保提交的姓名、出生日期、证件号码与所持证件一致，准确无误。

(二) 持有多本国际旅行证件人员，应以赴华入境使用证件为准。如申请健康码过程中使用多种证件且信息不一致的，须同时上传有关证件，以便核对。

(三) “检测采样日期”应填写登机前 24 小时内检测的采样日期，如：赴华航班 6 月 3 日起飞，应在系统中填报的“检测采样日期”为 6 月 2 日。

(四) 其他常见问题可查阅“防疫健康码国际版申报说明与常见问题解答”https://hr.cs.mfa.gov.cn/help_two/help-two/hs.html。

四、驻马使领馆审核健康码时间为航班前一天 9:00-21:00（含节假日）。请全体赴华乘客于航班前一天 20 时前申请。20 时以后提交的材料（含补充材料），原则上将于次日早 9 时起审核。为避免耽误您的行程，请在材料齐全后第一时间上传。被退回要求补充材料的，请务必在 1 个小时内补齐。

五、赴华乘客提交申请后请保持耐心，可自行查询审核结果，无需通过其他方式查询催问，以免影响复核工作效率。请勿反复测试提交检测证明，以免导致本人健康码失效。

六、推荐检测机构信息

马来西亚核酸检测机构名单

七、含可查验真伪二维码的核酸检测证明样式

Branch : Reference Care Lab
 Collected : 21/11/2021
 Received : 21/11/2021 14:35
 Reported : 21/11/2021 15:55
 Patient No : 1111

TEST	RESULT	FLAG	UNIT	REFERENCE RANGE
IMMUNOLOGY & SEROLOGY				
COVID-19 Antibody Tests				
SARS-CoV-2 (nucleocapsid) IgM	Negative			
SARS-CoV-2 (nucleocapsid) IgG	Negative			
Methodology: Rapid chromatographic immunoassay for the qualitative detection of specific antibodies to SARS-CoV-2 nucleocapsid (N-protein) present in serum or plasma of intravenous blood.				
MOLECULAR				
CORONAVIRUS DISEASE 2019 RNA (RT-PCR)				
Nature of Specimen	Nasopharyngeal and Oropharyngeal Swab			
SARS-CoV-2 RNA	Not Detected			
Detection cut-off Ct value	>40 (Not detected)			
Interpretation: Negative for Coronavirus Disease 2019 (COVID-19). A single negative result, particularly if the samples were collected from an upper respiratory tract does not exclude the infection. Negative target results are suggestive of either a sample at concentrations near or below the limit of detection of the test or a mutation in the corresponding target region. Repeat sampling and testing. Lower respiratory tract specimen is strongly recommended in severe or progressive disease(s). Sample with negative for COVID-19 is recommended to further test using Respiratory Panel to rule out other respiratory pathogen infection.
